

Abhishek Kumar

Date of birth: 10/04/2001 | **Place of birth:** India | **Nationality:** Indian | **Sex:** Male | **Phone:**

(+91) 7888873321 (Home) | **Email:** abhishek.k.jalandhar@gmail.com | **LinkedIn:** <https://www.linkedin.com/in/abhipy/> |

Github: <https://github.com/Abhi-VIT> | **Address:** ITI Colony 3, 845438, Bettiah, India (Home)

● ABOUT MYSELF

Passionate Data Science student with an interest in analytics and predictive model building. This help with order thinking capability the ability to understand the problem quickly and effectively apply it to solve it with Data interpretation knowledge which also helps me to accommodate in any environment and team easily. Playing with data and graphs is one of my hobbies that accommodates my interest in data science and also given boarder thinking to analyses. My technical expertise as a computer science enthusiast encompasses programming in Python, R, and SQL, along with proficiency in leading machine learning libraries such as sci-kit-learn, TensorFlow, Pytorch, and Keras.

● WORK EXPERIENCE

 **LIFE INSURANCE CORPORATION OF INDIA** – BETTIAH, INDIA

INSURANCE AGENT – 04/10/2023 – CURRENT

- Lead the about the insurance presentation and community building
- Colaborative reviewing of insurance policy and reviewing team
- Presented the policy for education and women's benefits.

● PROJECTS

2025

Graph Net – Intelligent Knowledge Graph for Data Science Learning

- Designed and developed a **specialized knowledge graph platform** for Data Science concepts using **web crawling techniques** to extract and organize relevant learning resources across the web.
- Implemented a **log-weighted graph network** that prioritizes topics based on relevance, ensuring learners follow an optimized path of prerequisite knowledge.
- Introduced a **token system (Diamond, Gold, Silver)** to classify concepts by importance and learning sequence, creating a **structured roadmap for skill progression**.
- Enhanced personalized learning by mapping user queries to **context-aware graph nodes**, guiding learners toward essential foundational concepts before advancing.
- Built as a **specialized website for Data Science learners**, integrating **search, visualization, and recommendation features** to improve accessibility of curated knowledge.

2025

ARG Data and Modeling – No-Code Data Science Platform

- Developed a **no-code platform** that empowers data scientists to perform **data analysis, preprocessing, and model building** without writing manual code.
- Integrated **drag-and-drop modules** for data cleaning, feature engineering, visualization, and model training, enabling faster experimentation and improved productivity.
- Supported **machine learning workflows** including supervised and unsupervised models, with backend powered by **TensorFlow, PyTorch, Pandas, and NumPy**.
- Designed a **user-friendly interface** with visualization capabilities using **Matplotlib and Seaborn**, making model insights more interpretable.
- Enabled **cloud integration** for scalable data processing and model deployment, providing flexibility for both beginners and advanced users.
- Improved accessibility by combining **automation with customization**, giving data scientists freedom to focus on insights and decision-making rather than repetitive coding tasks.

2025

Dynamic R Dataset Analysis and Visualization – No-Code Statistical Analysis Tool

- Built a **no-code software** in **R** that enables users to perform **statistical analysis and data visualization** through **interactive action buttons** instead of manual coding.
- Integrated **OLS regression, hypothesis testing, ANOVA, correlation, and time-series analysis** with automated result generation.
- Designed an intuitive **GUI with Shiny** for seamless data upload, transformation, and visualization, making advanced statistical methods accessible to non-programmers.
- Implemented **dynamic plots and dashboards** for exploratory data analysis, powered by R's visualization libraries.
- Enhanced usability by combining **automation, interactivity, and reproducibility**, helping users focus on insights rather than syntax.

2021

AI - Chatbot on E-learning

Made a AI chatbot on E- learning using the pytt3x3 in python and uses and Wikipedia API with some inbuilt features.

Link https://drive.google.com/file/d/1ORhXfIWbQ5uy17PIAMowCTTPzBoIYVXN/view?usp=drive_link

2023

Stock Price Prediction using the Linear Regression

A stock price prediction model using Linear regression in machine learning with using yahoo finance and sklearn.

Link <https://colab.research.google.com/drive/1uUFgjaVV1WcvrtRuEUFCs4r--dzVZRNx?usp=sharing>

2024

Stock analysis and Comparison Tool

A Website which shows the stock price analysis and comparison between two stock using the BeautifulSoup, yfinance and Streamlit

Link <https://github.com/Abhi-VIT/Capstone-Project-Stock-Comparison>

● EDUCATION AND TRAINING

09/2024 – 06/2026 Amaravati, India

MASTERS IN DATA SCIENCE Vellore Institute of Technology - AP

- **occupational techniques** (data preprocessing, feature engineering, data cleaning, exploratory data analysis, visualization using Matplotlib and Seaborn)
- **science applied to data and tools** (statistical analysis, linear algebra, probability, machine learning, deep learning frameworks such as TensorFlow and PyTorch, numerical computing with NumPy and Pandas)
- **occupational technology** (use of Jupyter notebooks, model training and evaluation, cloud integration for deployment, reproducibility, version control, hygiene and safety in handling datasets)
- **knowledge of business and its economic, legal and social context** (data-driven decision making, ethics in AI, privacy regulations, domain knowledge application, cost-benefit analysis of ML solutions)

Website vitap.ac.in | Final grade 8.48 CGPA

09/2020 – 09/2023 Muzaffarpur, India

BACHELOR IN MATHEMATICS Babasaheb Bhimrao Ambedkar Bihar University

Website <https://www.brabu.ac.in/>

● SKILLS

Python | Tableau | Microsoft Office | Web Development | Git | Github | MySQL | R Programming | Analytics | Collaborative | Implement | Statistics | Matlab | Deep Learning | CNN | ANN | Neo4j | MongoDB | PowerBI | JAVA | pytorch

● LANGUAGE SKILLS

Mother tongue(s): **HINDI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

CERTIFICATION

22/09/2025

Oracle Cloud Infrastructure 2025 Generative AI Professional (1Z0-1127-25)

Strengthened my expertise in Generative AI, LLMs, and OCI AI services. Learn skills to create impactful, AI-driven solutions and contribute to innovation in cloud and AI technologies

Link <https://drive.google.com/file/d/1nwFQhCezStl0nRldPzCZ7RJXir5LWZ-O/view?usp=sharing>

German A1, A2 - IIT Madras

The basic Course on German Reading, Writing and Speaking.

Links https://drive.google.com/file/d/17GvCCj5JK8k9RcXmkEq8Cu1d_TMgROVi/view?usp=sharing | https://www.linkedin.com/in/abhipy/details/certifications/1716363062905/single-media-viewer?type=DOCUMENT&profileId=ACoAADgxSUoBhdsGgQWt6z9PLDAJ4CAM2_aJaE&lipi=urn%3Ali%3Apage%3Ad_flagship3_profile_view_bas

21/12/2021 – 28/12/2023

Python for Beginners - NIT Warangal

A basic course for python programming and initial of python.

Link <https://drive.google.com/file/d/10WP6A-SMy9R6G3ZiUlo1sW6SMEUcopu/view?usp=drivesdk>

11/10/2021 – 15/10/2021

Python for Advanced Machine Learning - NIT Warangal

Included a project on Radar sensing.

Link <https://drive.google.com/file/d/18HQRWJO3WdtOMyaA9GZlAs8-KigD12O8/view>

12/2021

TCS iON Career Edge - Young Professional

Soft Skill Course in which taken the information about behavioral and communication skills, foundational knowledge in accounting, IT, and AI, and career preparedness tools like resume writing and interview skills.

Link <https://drive.google.com/file/d/1qhhzaE7fTk2wl4B2yFatJJWydR6zTMT2/view?usp=sharing>

08/2021

Remote sensing and GIS - Indian Institute of Remote Sensing (IIRS), Indian Space Research Organization (ISRO)

In this course learned about the fundamental and specialized aspects of remote sensing, GIS, and related technologies, including modules on image processing, spatial data science, and thematic applications like agriculture, forestry, wind pattern and disaster management.

Link <https://drive.google.com/file/d/1o0v-jgDgBo4MITbz2XDt4oeGdL1snPWP/view?usp=sharing>

02/2025

Cloud Essentials Knowledge Badge Assessment - AWS

foundational AWS Cloud concepts, including compute, storage, networking, databases, security, architecture, pricing, and support, to demonstrate a beginner's understanding of the AWS Cloud

Link <https://drive.google.com/file/d/1zo2HdFd6-iUqD8RZMnrCHQikbdtii0cz/view?usp=sharing>

03/2025

Accenture North America - Data Analytics and Visualization Job Simulation

Deep dive into the evolving world of data from an analytics and visualization perspective with *Navigating Numbers*. Learn data basics such as data cleaning, modeling, visualization and storytelling.

● **RESERACH PAPER**

Investigating the Synergistic Effects of Learning Rate, Optimizer, and Activation Function on Convolutional Neural Network Training

IEEE Conference paper

Deep learning model which uses above ten activation function and optimizers with Which compare to ResNet. Where how dynamic learning rate changes affect the model.
